## **DETAILED ACTION**

### ***Specifications***

The Specifications is deficient of the title for each of the subsections. The Examiner has listed below where he thinks it should be:

- 1) Field of Invention(*after title before the first sentence on Page 1*)
- 2) Background of Invention(*after first paragraph on Page 1*)
- 3) Summary of Invention(*after second paragraph on Page 2*)
- 4) Brief Description of Drawings(*on Line 1 on Page 4*)
- 5) Detailed Description(*after Line 5 on Page 4*)

Appropriate Correction is required. The Examiner cites MPEP 608.01(a)[R-2](b) for proposed amendment.

The following misspelling needed to be corrected: On page 1 Paragraph 3 Line 3 & Line 6, the spelling of PIN is spelled incorrectly.

The Abstract is being objected to because of the following informalities: The heading of the Abstract should be "Abstract" or "Abstract of the disclosure" and not "Summary" as it currently states. The Examiner cites MPEP 608.01(b)[R-2] for proposed amendment.

The Abstract contains reference to Figure 1, which the examiner believes is irrelevant and thus should be removed.

### ***Claim Objections***

Art Unit: 2132

Claim 1 says "...without the individual device code of the device(1)..." twice the examiner believes it should said once. The typographical error needs to be corrected.

Claim 2 says "...device code(1) in device 1...", but the device is one that is being referenced by (1) and hence the Examiner believes it should be "...device code in device (1)...". The typographical error needs to be corrected.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 recites "...the previous..." in the third item, it is unclear what is meant by previous. The examiner suggests that this term be deleted.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 1-4 rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Publication No. 2001/0054010 A1 (with priority under 119(e) based on 60/202251 filed on 5/5/2000) to Bernabeo et al.(hereinafter Bernabeo).
